

Get Your Cloud Needs Covered.

Data Canopy Government offers highly scalable cloud solutions that can be easily connected with your public cloud instances or physical infrastructure.

Cover your cloud needs with:

- Low-cost private and hybrid options with direct connection to the public cloud
- Enhanced connectivity options, including to hyperscale cloud providers
- Virtualization planning and migration services
- Support for industry and federal regulatory compliance, such as HIPAA/HITECH
- In-facility physical and cloud connectivity with no cross connect fees
- Availability of dedicated resources with scaling on-demand

Data Canopy Government's highly secure and always available cloud environment helps you to extend your IT infrastructure with maximum flexibility and infinite scaling.

Support your virtual infrastructure with:

CONNECTIVITY

- Access more than 170 carriers on net
- Point to point or VPN custom carrier options
- Blended service with BGP for 99.999% uptime
- Optimize connectivity with SD-WAN

STORAGE

- Low-cost access to production storage
- Large-scale backups
- Connect to storage without additional fees

SECURITY

- Detect intrusions
- Identify and isolate threats
- 24x7x365 manned SOC

Our virtualization experts help you to create the cloud that fits your business to help you reach your goals. **Get more information:** contact@datacanopygovernment.com
