

MICROSOFT OFFICE 365

Optimize your Office 365 experience and deliver on your business goals

What Can Your CSP Do For You?

When you choose Data Canopy as your Microsoft Cloud Solution Provider (CSP), you gain the support of a cloud expert who can deliver much more than licensing.

License Audits

Review your current licenses and ensure that you have what you need and nothing more.

Custom Training

Learn how to leverage your Microsoft Office 365 tools better with expert training sessions customized to your needs.

Dependable Management

Regular monitoring, reporting, and active support for all of your cloud needs.

Data Protection

Get low-cost backups for your Office 365 data. Data Canopy helps you to deploy an easily managed disaster recovery solution to ensure your business is protected.

Why Choose Data Canopy?

- Microsoft-certified expertise, ensuring your Office 365 environment is optimized and fully supported
- Pro-active assessments to save costs on your Office 365 licensing
- Cloud migration and virtualization specialists for when you're ready to take your cloud journey beyond Office 365

Ready to Take Your Cloud Further?

Data Canopy are cloud experts. We can help you to think beyond Office 365 to get your company benefitting from greater capacity to scale, lower capital expenses, and improved productivity that comes with virtualization. Data Canopy offers:

- Public cloud solutions with direct connection to Azure and AWS
- Affordable private cloud environments custom-fit to your needs
- Colocation in highly secure, always available facilities to support your physical infrastructure
- Bare metal and hardware-as-a-service solutions to cover every infrastructure requirement
