

DISASTER RECOVERY

LISTEN FOR AN ORGANIZATION THAT

- Has had an outage or data loss event.
- Is subject to regulations that require data retention.
- Has a low tolerance for downtime -i.e., will lose money if offline.
- Currently has all of their data hosted in one place –especially on premise.
- Wants to virtualize backups.

OUR DIFFERENTIATORS

- Reduced cost and complexity for your infrastructure.
- Right-sized solution with specialized discovery process for hybrid and multi-cloud environments.
- Expertise in regulated and complicated industries.

CRAFTING YOUR JOURNEY

- Do you have a disaster recovery or data retention policy? Who is in charge of monitoring it?
- Do you know which servers or applications are critical to your business? How are they protected?
- Where is your primary infrastructure hosted? Are your backups and storage in the same place?

TOP THREE TALKING POINTS

- 1 Limit Operational Impact of Natural or Man-Made Disaster**
 - Geographic redundancy in Tier III enhanced facilities and virtual resources available for seamless failover in the event of an emergency.
- 2 Flexible Options to Custom-Fit Your DR Solution**
 - Cold, warm, and hot DR options along with virtual, physical, and hybrid solutions are available to ensure RTOs and RPOs are met.
- 3 Cost-Effective, Enterprise-Class DR Solutions**
 - There is a solution option for every budget with varying RTOs and RPOs. All solutions are hosted from Tier III enhanced facilities.

CUSTOMER BENEFITS

CUSTOMER BENEFITS

Limit Loss With a Disaster Recovery Plan

- Cold, Warm, and Hot DR options for customized DR planning.
- Virtual server backups for seamless failover in the event of an outage.
- Geographic redundancy at Tier III enhanced data centers to mitigate regional disasters.

A Competitive Advantage

- Enterprise-class service and uptime.
- Enhanced resilience.
- Support regulatory and compliance standards.

Maintain Regulatory Compliance

- Establish and maintain retention policies.
- Low-cost long-term storage.
- Public cloud, hybrid, and private cloud connectivity.
- Security and stability of a Tier III enhanced facility.

VENDOR AGNOSTIC

Strong industry partners ensure your solution is built on the technologies you require.

CUSTOM-FIT INFRASTRUCTURE

Infrastructure built on industry leading technology and hosted in Tier III enhanced facilities.

ECONOMIES OF SCALE

Access global carriers, highly secure cloud, and data center facilities worldwide.

CLOUD EXPERTISE

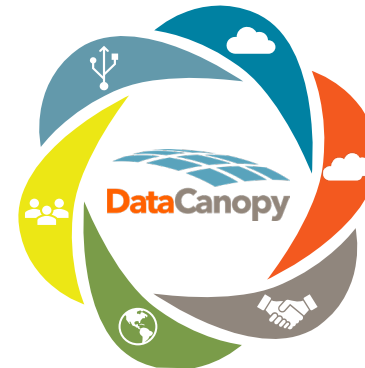

Vendor-certified, industry-tested engineers support your discovery, optimization, migration and management.

ONE HAND TO SHAKE

Your entire infrastructure solution under the Data Canopy umbrella.

MULTI-CLOUD ACCESS

Directly connect to hyperscalers, including Amazon Web Services, Microsoft Azure, and more to save money and time.

Data Canopy leverages national carriers, a highly secure cloud, and global data center facilities to cover all your hybrid infrastructure needs.
